

ANKITA VERMA

B-115, Satkar Apartment, Thaltej, Ahmedabad, Gujarat, India ♦ Phone: +91- 9452482658 ♦ Email: infoankita10@gmail.com ♦ LinkedIn: ankitaverma10

PROFESSIONAL SUMMARY

- Experience in working with various Python Integrated Development Environments like PyCharm, VS Code & IDLE.
- Developed Web Applications using HTML5, CSS3, JavaScript, Python, Django.
- Working knowledge in various UI technologies like HTML5, CSS3, JavaScript, Bootstrap4 & Ajax call.
- Extensively Worked on CSS Background, CSS Positioning, CSS Text, CSS Border, CSS Margin, CSS Padding, CSS Table, Behaviors in CSS.
- Basic knowledge on Agile Methodologies for fast project development.
- Created methods (get, post, put, delete) to make the CRUD operation using Django.
- Familiar with databases i.e., SQL.
- Creating repositories in GitHub for version controlling.
- Having knowledge of Python fundamentals like tuples, dictionaries, lists, list comprehensions and OOPS principles.
- Ability to learn and adapt quickly and to correctly apply new tools and technologies.
- Ability to handle multiple tasks and work as a developer.

EDUCATION

Name of Exam	College / School	University / Board	CGPA / Percentage
B. Tech Electronics & Communication (2019-2022)	IET, Ayodhya	Dr. Ram Manohar Lohia Avadh University	70.00%
H.S.C. 2017	RSIC Swayambarnagar Dalpatpur Faizabad	U.P Board	74.20%
S.S.C. 2015	PVM Inter Collage Pausara Faizabad	U.P Board	75.50%

EXPERIENCE

07/2019 – 09/2019

SOFTPRO INDIA

Internship Program (Embedded System & PCB Design Techniques)

Ayodhya, Uttar Pradesh

05/2020 – 05/2020

DOAFCO

Python, OOPS Concept

Ayodhya, Uttar Pradesh

TECHNICAL SKILLS

Programming Language	: C, Python
Framework	: Django 3.1
ORM Frameworks	: Django ORM
Web Technologies	: HTML5, CSS3, JavaScript, Bootstrap4
Database	: SQL
Servers	: Django Server
IDE's	: PyCharm, VS Code, IDLE
Version Control	: Git
Tools	: Agile
Debugging tools	: Chrome Developer Tools

PROJECTS

Project_1: BANK OPERATION

- Python - Script
- Using Python Libraries: random

Concept of my project: - Bank operation using Function Based view. This is a basic Online Banking Concept created using Python, it contains various functions which include create an account which is auto-generated, deposit money, withdraw amount & check balance. The list is used to store the account number, balance, name of a person and pin no.

Duration: 7 days

Git: <https://github.com/ankita-world/Bank-Operation.git>

Project_2: EMPLOYEE INFORMATION

- Python - Script
- Django - Framework
- Database - Sqlite3
- HTML5, CSS3 & Bootstrap - Designing Pages

Concept of my project: - To Storing the Employee data in a company database. It's only visible for a manager of the company (manager can see the all the employee details who are currently working on his company).

Duration: 5 days

Git: <https://github.com/ankita-world/Employee-Information.git>

Project_3: BIRYANI APPLICATION

- Python - Script
- Django – Framework
- Database – Sqlite3
- Django – ORM
- HTML5, CSS3 & Bootstrap – Designing Pages

Concept of my project: - The Django Biryani Application is a web-based project that aims to provide a platform for users to explore various types and varieties of biryani dishes. Biryani is a popular and beloved dish in many parts of the world, known for its rich flavors and aromatic spices. This application will allow users to view different types of biryani and the various variations within each type. Users can also contribute by adding new types or varieties to the database.

Duration: 5 days

Git: https://github.com/ankita-world/Biryani_Ordering_System.git

B. TECH PROJECT

FINGERPRINT BASED VOTING MACHINE

Fingerprint based voting machine using Arduino is a technology-driven approach to enhance the security and efficiency of the voting process. This project aims to replace traditional voting methods with a biometric based system that ensures voter authentication through fingerprint recognition. The system employs an Arduino microcontroller to manage the voting process and interact with the fingerprint sensor.

CERTIFICATIONS

- **EMBEDDED SYSTEMS and PCB DESIGNING @ SOFTPRO INDIA Pvt. Ltd.**
- **Python, OOPS Concept @ DOAFCO**

ACHIVEMENTS

- Participated in Innovation, Cognitive Skill and Design Thinking of One Week National Workshop.
- Organized the National Science Day at college level.
- Participated in many events at college level.

DECLARATION

I hereby declare that above written particulars are correct up to my knowledge and belief and I bear the responsibility for correctness of above-mentioned particulars.
